The Association of Applied Geochemists is an international organization specializing in the field of exploration and applied geochemistry. Their objectives are to promote the application of geochemistry in relation to exploration and the environment, to foster communication, fellowship and co-operation between those working in, studying or who have an interest in these fields. The AAG newsletter is EXPLORE (quarterly). AAG offers three types of membership: Fellow (voting members); Member (non-voting members); and Student. All three receive the journal Geochemistry: Exploration, Environment, Analysis. All submissions to the journal should be prepared as outlined on the Society’s Web Site (www.appliedgeochemists.org). All submissions to the journal should be made online via http://geea.allentrack.net.

The Geological Society of London was founded in 1807. It is the UK national society for geoscience, and the longest established geological society in the world. As a learned society and professional body, the Geological Society provides a wide range of professional and scientific support to over 12,000 Fellows (FGS); about 2000 of whom live overseas. Fellowship of the Society is open to those holding a recognized honours degree in geology or a cognate subject, or not less than six years relevant experience in geology or a cognate subject. The Society is the chartering authority able to award Chartered Geologist (CGeol) status to appropriately qualified Fellows with six years relevant postgraduate experience in the practice of geology. The Society also awards the title of Chartered Scientist (CSi). Candidate Fellowship is available to those who do not yet qualify for Fellowship (e.g. students).

AAG Business Office, P.O. Box 26099, 72 Robertson Rd, Nepean, ON, Canada K2H 9R0. Tel: 613-828-0199; Fax: 613-828-9288: AAG Business Office, P.O. Box 26099, 72 Robertson Rd, Nepean, ON, Canada K2H 9R0. Tel: 613-828-0199; Fax: 613-828-9288.

The Society has its own Publishing House in Bath, UK. It publishes the Society’s international journals, special publications, books and maps and is the European distributor for publications of the American Association of Petroleum Geologists (AAPG) and the Society for Sedimentary Geology (SEPM). Fellows are entitled to significant discounts on journals, books and special publications. The Society has an online bookshop (http://www.geolsoc.org.uk/bookshop) where books can be purchased online using credit and debit cards.

Further information about the Society and Membership may be obtained from the Geological Society, Burlington House, Piccadilly, London W1J 0BG (email: enquiries@geolsoc.org.uk; tel: +44(0)207 434 9944).

Website: http://www.geolsoc.org.uk

The Society is a Registered Charity, number 210161.
The Association of Applied Geochemists

The Association of Applied Geochemists is an international organization specializing in the field of exploration and applied geochemistry. Their objectives are to promote the application of geochemistry in relation to exploration and the environment, to foster communication, fellowship and co-operation between those working in, studying or who have an interest in these fields. The AAG newsletter is EXPLORE (quarterly); AAG also offers three types of membership: Fellow (voting members); Member (non-voting members); and Student. All three receive the journal Geochemistry: Exploration, Environment, Analysis. All submissions to the journal should be made online via http://geea.allentrack.net.

Typeset by Nova Technic Private Limited, Bengaluru and Chennai, India. Printed in Great Britain by Henry Ling Limited, at the Dorset Press, Dorchester, Dorset, DT1 1HD.

Submission procedure: Manuscripts should be prepared as outlined on the Society’s Web Site (www.appliedgeochemists.org). All submissions to the journal should be made online via http://geea.allentrack.net.

The Geological Society of London and The Association of Applied Geochemists are pleased to offer authors the choice to publish articles via Open Access in Geochemistry: Exploration, Environment, Analysis. To find out more go to www.geolsoc.org.uk/Open-Access

Editorial Board

Associated with the Geological Society of London and the Association of Applied Geochemists, the Open Access journal Geochemistry: Exploration, Environment, Analysis offers authors the choice to publish their work under a Creative Commons Attribution License (CC BY). This license allows for unrestricted use, distribution, and reproduction of the work in any medium, provided the original work is properly cited. This approach promotes the dissemination of scientific knowledge and fosters open science practices. To find out more about Open Access and the choices it offers, visit www.geolsoc.org.uk/Open-Access.
