working in, studying or who have an interest in these fields. The objective is to foster communication, fellowship and cooperation between those interested in geochemistry in relation to exploration and the environment, to promote the application of geochemistry. Their objectives are to promote the application of geochemistry. The Association of Applied Geochemists is an international organization specializing in the field of exploration and applied geochemistry.

The Association of Applied Geochemists

The Association of Applied Geochemists is an international organization specializing in the field of exploration and applied geochemistry. Their objectives are to promote the application of geochemistry in relation to exploration and the environment, to foster communication, fellowship and cooperation between those interested in geochemistry in relation to exploration and the environment, to promote the application of geochemistry. Their objectives are to promote the application of geochemistry.

The Geological Society
The Geological Society of London was founded in 1807. It is the UK national society for geoscience, and the longest-established geological society in the world. As a learned society and professional body, the Geological Society provides a wide range of professional and scientific support to over 12,000 Fellows (FGS), about 2000 of whom live overseas. Fellowship of the Society is open to those holding a recognised honours degree in geology or a cognate subject, or not less than six years relevant experience in geology or a cognate subject. The Society is the chartering authority able to award Chartered Geologist (CGeol) status to appropriately qualified Fellows with six years relevant postgraduate experience in the practice of geology. The Society also awards the title of Chartered Scientist (CSci). Candidate Fellowship is available to those who do not yet qualify for Fellowship (e.g. students).

Associate Editors
Paola Adamo, Naples University Federico II, Italy
Nelson Batista, Laurentian University, Canada
Rob Bowell, SFK Consulting (UK) Ltd, UK
Antonella Buccianti, University of Florence, Italy
Patrik de Caritat, Geoscience Australia, Australia
Alecos Demetriades, Institute of Geology and Mineral Exploration, Greece
David Poultney, University of Kansas, USA

Editorial Board
Andy Bajc, Ontario Geological Survey, Canada
Neil Brewed, 2 Intake Road, UK
Mark Cave, British Geological Survey, UK
Quiming Cheng, York University, Canada
David Cohen, University of New South Wales
Colin Dunn, Sidney, BC, Canada
David Fey, US Geological Survey, Denver, USA
Robert Garrett, Geological Survey of Canada, Canada

The Geological Society has its own Publishing House in Bath, UK. It publishes the Society’s international journals, special publications, books and maps and is the European distributor for publications of the American Association of Petroleum Geologists (AAPG) and the Society for Sedimentary Geology (SEPM). Fellows are entitled to significant discounts on journals, books and special publications. The Society has an online bookshop (http://www.geolsoc.org.uk/bookshop) where books can be purchased online using credit and debit cards.

Further information about the Society and Membership may be obtained from the Geological Society, Burlington House, Piccadilly, London W1J 0BG (email: enquiries@geolsoc.org.uk; tel: +44(0)20 7434 9944). Website: http://www.geolsoc.org.uk

The Society is a Registered Charity, number 210161

The Geological Society’s publish-ahead-of-print system
Online First enables articles from Geochemistry: Exploration, Environment, Analysis to appear online soon after they have been accepted for publication and ahead of the printed volume.

Who can access Online First content?
• GSL fellows who choose to subscribe to Geochemistry: Exploration, Environment, Analysis
• Institutional subscribers to the Lyell Collection Complete or to Geochemistry: Exploration, Environment, Analysis
• Individuals can purchase articles on a pay-per-view basis
• Sign up for Online First alerts

Find out more online: geea.lyellcollection.org/content/early/recent

Submission procedure: Manuscripts should be prepared as outlined here: https://www.geolsoc.org.uk/geea_authorinfo. All submissions to the journal should be made online via www.editorialmanager.com/geochem
