The Association of Applied Geochemists is an international organization specializing in the field of exploration and applied geochemistry. Their objectives are to promote the application of geochemistry in relation to exploration and the environment, to foster communication, to link members and to co-operate between those working in the field. They offer three types of membership: Fellow (voting members); Fellow (non-voting members); and Student. All three receive the journal Geochemistry: Exploration, Environment, Analysis (GEEA). The society also offers the following awards: the Association of Applied Geochemists (AAG) awards the Cameron-Hall Copper Medal to the lead author for outstanding scientific publication in Geochemistry: Exploration, Environment, Analysis (GEEA). The outstanding recipient at the AAG's International Applied Geochemistry Symposium is the Cameron-Hall Copper Medal. The AAG newsletter is EXPLORE (quarterly). The AAG offers three types of membership: Fellow (voting members); Fellow (non-voting members); and Student. All three receive the journal Geochemistry: Exploration, Environment, Analysis (GEEA). The association offers the AAG website https://www.appliedgeochemists.org/association/ awards.

The Geological Society of London was founded in 1807 and is the UK national society for geoscience, and the longest established geological society in the world. It was incorporated under Royal Charter in 1825 and is a Registered Charity. The Society has its own Publishing House in Bath, UK. It publishes the Society's international journals, special publications, books and maps and is the European distributor for publications of the American Association of Petroleum Geologists (AAPG) and the Society for Sedimentary Geology (SEPM). Fellows are entitled to significant discounts on journals, books and special publications. The Society has an online bookshop (http://www.geolsoc.org.uk/bookshop) where books can be purchased online using credit and debit cards.

Further information about the Society and Membership may be obtained from the Geological Society, Burlington House, London W1J 0BG (e-mail: enquiries@geolsoc.org.uk; tel: +44(0)207 434 9944). More information on the society can be found at http://www.geolsoc.org.uk.

Association of Applied Geochemists

The Association of Applied Geochemists (AAG) awards the Cameron-Hall Copper Medal to the lead author for outstanding scientific publication in Geochemistry: Exploration, Environment, Analysis (GEEA). This annual medal will be presented to the deserving recipient at the AAG’s International Applied Geochemistry Symposium. The Cameron-Hall Copper Medal is named in honour of two prominent and highly published AAG members and past editors of GEEA, Eion Cameron and Wendy Hall. Both are the only AAG Gold and Silver Medal awardees since the association formed nearly 50 years ago. More information is available on the AAG website https://www.appliedgeochemists.org/association/ awards.

The Lyell Collection

One of the largest integrated collections of online Earth science literature in the world

What is the Lyell Collection?

The Lyell Collection is an online collection comprising the Society’s journal titles, Special Publications and key book series. Cutting edge science sits alongside important historical material, benefiting from the superb functionality offered by the online host, HighWire. With over 310,000 peer-reviewed pages, 30,000 articles and 1,000 volumes, the Lyell Collection is an invaluable tool for the researcher and student alike.

- Full text in HTML and PDF format
- Actively linked to cited references
- Free abstracts
- Free eTOC alerting
- Selected articles free online

The Lyell Collection welcomes Open Access papers

- Transactions of the Edinburgh Geological Society,
- Transactions of the Geological Society of Glasgow
- Transactions of the Geological Society of London (only available as part of a Lyell Collection Complete subscription)

Special Publication Online Archives

The first 450 volumes of the Geological Society’s Special Publications Online Archive are available as an on-demand purchase with perpetual access. Volumes 401-450 now available.

Journal of the Geological Society Online Archive

The JGS Archive includes over 17,000 articles and comprises over 150 years of geoscience research, including important historical content from many eminent scientists.

The Geological Society

The Geological Society of London was founded in 1807 and is the UK national society for geoscience. It is a global leader in Earth science publishing, dedicated to providing high-quality content and service throughout the world.
