

Geochemistry

EXPLORATION, ENVIRONMENT,
ANALYSIS

The journal is abstracted and/or indexed in *AGI's Bibliography and Index of Geology*, *Chemical Abstracts*, *Current Contents*, *Engineering Index*, *GEOBASE*, *GeoRef*, *Mineralogical Abstracts*, *PASCAL/CNRS*, *GeoArchive*, *Thomson ISI database (SCIE, CCI/PC & ES)*

Editor: **G. E. M. Hall**, Geological Survey of Canada, Ottawa, Canada (e-mail: GHall@NRCan.gc.ca)

Associate Editors: **R. Bowell** (SRK Consulting, Cardiff, UK) **C. R. M. Butt** (CSIRO, Perth, Australia), **C. Reimann** (The Geological Survey of Norway)

Production Editor: **Sally Oberst**, Geological Society Publishing House, Bath, UK (e-mail: sally.oberst@geolsoc.org.uk)

CONTENTS - Volume 8, No. 2

Quantitative assessment of the success of geochemical exploration techniques using minimum probability methods

C. R. Stanley & R. R. P. Noble 115

Missed hits or near misses: determining how many samples are necessary to confidently detect nugget-borne mineralization

C. R. Stanley 129

Niobium in boreal stream waters and brackish-water sediments

M. E. Åström, P. Peltola, J. J. Virtasalo, A. T. Kotilainen & R. Salminen 139

Variation in geochemical background levels for Jamaican soils

R. G. Garrett, G. C. Lalor, J. Preston & M. K. Vutchkov 149

Mineral hosts for gold and trace metals in regolith at Boddington gold deposit and Scuddles massive copper–zinc sulphide deposit, Western Australia: an LA-ICP-MS study

M. Le Gleuher, R. R. Anand, R. A. Eggleton & N. Radford 157

Thompson–Howarth error analysis: unbiased alternatives to the large-sample method for assessing non-normally distributed measurement error in geochemical samples

C. R. Stanley & D. Lawie 173

Progress in the collection of Geogas in China

M. Wang, Y. Gao & Y. Liu 183

Arsenic distribution in mesquite (*Prosopis laevigata*) and huizache (*Acacia farnesiana*) in the Zimapán mining area, México

M. A. Armienta, L. K. Ongley, R. Rodríguez, O. Cruz, H. Mango & G. Villaseñor 191

Book review 199

Geochemistry: Exploration, Environment, Analysis (ISSN 1467-7873) is published in February, May, August and November by the Geological Society Publishing House for the Geological Society, London and the Association of Applied Geochemists.

Subscriptions (volume 8, 2008): The subscription rate is £190 (UK), £190/\$380 (rest of Europe, USA & Canada) and £215/\$430 (rest of world) per volume, including postage and air-speeded delivery. Single issue price is £53 (UK), £53/\$106 (rest of Europe, USA & Canada) and £60/\$120 (rest of world). Trade subscriptions should be addressed to Journals Subscriptions Department, Geological Society Publishing House, Unit 7, Brassmill Enterprise Centre, Brassmill Lane, Bath BA1 3JN, UK (Tel: +44 (0) 1225 445046; Fax +44 (0)1225 442836).

Periodical postage paid at Middlesex, N.J. *Postmaster:* send address changes to *Geochemistry: Exploration, Environment, Analysis*. The Geological Society, c/o Pronto Mailers, PO Box 177, Middlesex, NJ 08846.
